## WHAT ABOUT SAFETY?

### *Personal Safety*

Lobby doors are locked daily between 4:30 pm and 8:00 am Monday-Friday; and 24 hours on Saturday and Sunday. Wing doors should always be locked. Outside visitors and guests must be 18 years of age or older and accompanied by the resident at all times. You should carry your NIACC OneCard with you at all times and notify all family and invited guests of this policy. Many safety tips are included in a report entitled “Campus Safety and Security.” This can be found on the MyNIACC portal under resources or at <http://www.niacc.edu/about/consumer-information/>. You should read this brochure and discuss these precautions and any questions or concerns you have with your RA, an Associate Hall Director, or Security.

If you need assistance, contact a Housing Associate Hall Director at 641-425-2077. After midnight, call the Housing Security Officer at 641-420-3065. In the event of an immediate emergency, dial 911 for police or fire protection. The Mason City Police main number for non-emergencies is 641-421-3636.

The Mason City Police Department, along with their canine unit, makes regular visits to the Campus View Housing Complex and regularly patrols the parking lot. If illegal drugs are found in your room, your housing contract may be terminated.

If you suffer personal injury, property loss, or physical assault while on NIACC property (Housing included), you must file an incident report with a Associate Hall Director. In addition, all incidents of harassment must be reported.

**NIACC is not liable for loss, theft, or damage to any property belonging to the resident.**

Residents are expected to carry their own health and personal property insurance. In the case of theft or property loss, you should file an incident report with a Associate Hall Director and report such loss to your insurance carrier. For a brochure on buying student property insurance, stop in the Student Development office (AB104).

### ***Missing Student and Emergency Contact Registration***

North Iowa Area Community College requires students residing in the College owned housing to provide emergency contact information. This confidential information will be used only by authorized College personnel in the event a student is reported missing while at the institution.

If a NIACC student living in on-campus housing is suspected to be missing from campus, students, faculty, and staff are instructed to immediately report this information to the Vice President for Student Development and Success. The Mason City Police Department must be called if any student is reported as missing after 24 hours of the report.

If the reported missing student resides off campus, individuals may contact the Vice President for Student Development and Success for assistance in making notifications to the emergency contact number and to the police department.

All reports of missing students made to the Student Housing staff will be investigated and given priority to other tasks. If the investigation determines that the student has been missing over 24 hours then within the next 24 hours the NIACC staff will:

- Notify the individual identified as the student's emergency contact person;
- If under 18 years of age, the College will notify parent or guardian, and;

- If 18 years of age or older and have not provided an emergency contact, NIACC will notify the parent or guardian, if the information is available, and the appropriate law enforcement agency.

### ***Fire Prevention***

A smoke detector is provided in your suite and checked once per month for your safety. **TAMPERING WITH A SMOKE DETECTOR OR A FIRE ALARM IS AGAINST THE LAW! THERE IS A \$50 FINE FOR TAMPERING OR REMOVING A SMOKE DETECTOR. CONTACT MAINTENANCE OR SECURITY IMMEDIATELY IF DETECTOR OR FIRE ALARM MALFUNCTIONS.**

In case of a fire or other emergency requiring evacuation, Housing residents should do the following:

1. Exit the room immediately.
2. Wear shoes and a coat.

Proceed to the nearest exit (fire exit is in the stairwells).

Student Housing fire exit routes are included in your check-in packet.

When outside, move as far away from the building as possible and stay away from windows and exterior doorways. Meet your RA in the North parking lot. In case of inclement weather, go to the NIACC Gymnasium.

Note: If the fire is directly outside your door stay in your room, close your door, and put a towel under your door.

### ***Student Health Vouchers***

NIACC works with the Mercy Family Medical Residency and the Community Health Center of Fort Dodge, Inc. (Mason City Site) to provide medical services through a voucher system. You may have access to a physician for consultation on any medical, mental health or dental issue and/or consultation on any prescription through the use of the Student Health Voucher (no cost to you). The voucher may be obtained from the Director of Housing, Associate Hall Directors, the Director of Athletics, the Certified Athletic Trainer, Student Conduct Liaison, Director of Student Development, or the Vice President for Student Development and Success. There is no limit on the number of

vouchers a student may obtain.

An appointment will be made within 24 hours of this request. Appointment will be scheduled between 8:30 am and 11:30 am, and 1:30 pm and 4:30 pm Monday through Friday. Appointment requests taken after 8:00 am on Friday may be scheduled no later than 4:30 pm on Monday.

### ***COVID-19 Mask Policy***

At the present time (August 1, 2022) students are not required to wear face coverings. Under direction of Cerro Gordo County Public Health, the COVID-19 Mask Policy requiring face coverings over the nose and mouth in all common areas of all students, faculty, and staff could be reinstated at any time.

In the event the COVID-19 Mask Policy is reinstated, notification will be given to students with directions on masking from Cerro Gordo County Public Health.

### ***Meningitis Information***

#### ***What is Meningococcal Disease?***

Meningococcal disease is a rare but potentially fatal bacterial infection. The disease is expressed as either meningococcal meningitis (an inflammation of membranes surrounding the brain and spinal cord) or meningococemia (the presence of bacteria in the blood.)

#### ***What causes Meningococcal Disease?***

Meningococcal disease is caused by the bacterium *Neisseria Meningitidis*, a leading cause of meningitis and septicemia (or blood poisoning) in the US. Meningitis is one of the most common manifestations of the disease, although it has been known to cause septic arthritis, pneumonia, brain inflammation and other syndromes.

#### ***How is Meningococcal Disease Spread?***

Meningococcal disease is transmitted through the air via droplets of respiratory secretions and direct contact with an infected person. Direct contact for these purposes, is defined as oral contact with shared items such as cigarettes or drinking glasses, or through intimate contact such as kissing.

### ***What are the Symptoms?***

The early symptoms usually associated with meningococcal disease include fever, severe headache, stiff neck, rash, nausea, vomiting and lethargy, and may resemble the flu. Because the disease progresses rapidly, often in as little as 12 hours, students are urged to seek medical care immediately if they experience two or more of these symptoms concurrently.

### ***Who is at Risk?***

Evidence found students residing on campus in dormitories appears to be a higher risk for meningococcal disease than college students overall. Further research released by the US Center for Disease Control (CDC) shows freshmen living in dormitories have a six times higher risk of meningococcal disease than college students overall.

### ***Why Should College Student Consider Vaccination with the Meningococcal Vaccine?***

Data from the CDC demonstrate increasing incidence of outbreaks on college campuses. Data further suggests that sub-populations of college students are at increased risk for meningococcal disease. Pre-exposure vaccination enhances immunity to four strains of meningococcus that causes 65 to 70 percent of invasive diseases and therefore reduces a student's risk for disease. Development of immunity post-vaccination requires 7-10 days.

### ***Who should be Vaccinated Pre-Exposure?***

- Entering college students, particularly those living in dormitories or residence halls, who elect to decrease their risk of meningococcal disease.
- Undergraduate students 25 years of age or younger who are not pregnant and who request vaccination in order to decrease their risk for disease.
- Students with medical conditions that compromise immunity (e.g., HIV, absent spleen, antibody deficiency, etc.)
- Students traveling to areas of the world with endemic meningococcal disease.

For additional information contact the US Center for Disease Control at 800-232-2522 or online.

## ***Weather Alert Siren / Tornado Warning***

It is important to know the following:

- **Tornado Watch:** Conditions are such that a tornado could develop.
- **Tornado Warning:** Sirens Sound - A tornado has been sighted. Seek shelter immediately.

A civil defense siren is located on campus. When this alert is sounded, immediately go to the designated shelter areas in a calm and orderly manner. Housing residents should leave their room and congregate in the laundry rooms and garbage/recycling rooms on the lower level for protection. In the event you do not have time to reach a designated area, seek shelter in the lowest level of the building, under sturdy objects and against inner walls. Stay out of rooms with large windows, doors, and large roof spans. Crouch into as small a body position as possible.

“All Clear” will come from NIACC staff. The siren is NOT used to sound an all clear.

Generally speaking, modern concrete reinforced buildings, such as most of those on our campus, are usually not heavily damaged by a tornado. These structures will generally provide relatively safe areas during a tornado, providing students stay away from windows and doors. Safest areas are rooms on ground floor opposite to the approach direction of the tornado. Do not use elevators during severe storms or tornado warnings since electrical power may be disrupted.
